

INTERNATIONAL COASTAL CLEANUP DAY

The International Coastal Cleanup (ICC) Day is a collective effort of volunteers around the world to remove marine debris from the world's beaches and waterways. Join this global effort, protect our coastal ecosystem to enhance resilience against climate change and environment degradation.

Together, let's ensure cleaner oceans and a healthier planet for future generations.

TRASH TRAVELS!

Plastic bags from a store, if improperly disposed, gets blown into storm drains, through the waterways, then into the ocean where marine wildlife mistake it for food.

WHAT ARE MARINE DEBRIS?

These are any trash in oceans, lakes, and waterways such as:

Plastic Bottles

Plastic bags

Takeaway Containers

Straws

Food Packaging

Fishing gears

HOW CAN YOU HELP?

Organize / Join coastal cleanup initiatives

Use reusable materials; refrain single-use plastics

Dispose wastes properly
